Letter to High School Mathematics Teachers

Letter to High School Principals

Introduction

- A Brief History of the Common Core
- The Common Core State Standards for Mathematics
- Instructional Shifts
- Major Work of High School
- Common Core Word Wall
- The Common Core Standards for Mathematical Practice
- Effective Teaching Practices
- How to Use This Book
- Reflection Questions

1. Modeling

- Conceptual Category Overview
- Sample Unit Planning Page
- Reflection Questions: Modeling

2. Number and Quantity

- Conceptual Category Overview
- Suggested Materials
- Number and Quantity — Overarching Key Vocabulary
- Domain: The Real Number System (N.RN)
- Domain: Quantities (N.Q)
- Domain: The Complex Number System (N.CN)
- Domain: Vector & Matrix Quantities

3. Algebra

- Conceptual Category Overview
- Suggested Materials
- Algebra — Overarching Key Vocabulary
- Domain: Seeing Structure in Expressions (A.SSE)
- Domain: Arithmetic with Polynomials and Rational Expressions (A.APR)
- Domain: Arithmetic Creating Equations (A.CED)
- Domain: Reasoning with Equations and Inequalities (A.REI)

4. Functions

Conceptual Category Overview

Suggested Materials

Functions — Overarching Key Vocabulary

Domain: Interpreting Functions (F.IF)

Domain: Building Functions (F.BF)

Domain: Linear, Quadratic, and Exponential Models (F.LE)

Domain: Trigonometric Functions (F.TF)

5. Geometry

Conceptual Category Overview

Suggested Materials

Geometry — Overarching Key Vocabulary

Domain: Congruence (G.CO)

Domain: Similarity, Right Triangles, and Trigonometry (G.SRT)

Domain: Circles (G.C)

Domain: Expressing Geometric Properties with Equations (G.GPE)

Domain: Geometric Measurement and Dimension (G.GMD)

Domain: Modeling with Geometry (G.MG)

6. Statistics and Probability

Conceptual Category Overview

Suggested Materials

Statistics and Probability — Overarching Key Vocabulary

Domain: Interpreting Categorical and Quantitative Data (S.ID)

Domain: Making Inferences and Justifying Conclusions (S.IC)

Domain: Conditional Probability and the Rules of Probability (S.CP)

Domain: Using Probability to make Decisions (S.MD)
